## JUNIOR REACT DEVELOPER

from September 2021

Military service: Done

## ABOUT ME

I **worked** at Fanavaran (Pajooresh and Tose'e amn) company for about a year. Before that, I learned React mostly by self-taught in the boot camp and outside of it, and I improve myself every day.

## WORK EXPERIANCE

Participation in the project( **pajuhesh & tose'e amn**)  
(1/7/2022~22/5/2023)

- **React js**
- used **AXIOS** as **HTTP Request**
- used **Postman** & **GIT** with team
- used **JIRA**
- Redux Saga
- working on more than ten components of a project in which all four methods of CRUD were used, including video and ticketing and setting modules ,... .

## SAMPLE GITFLOW PROJECTS

**\*\*BLOG SITE (Rest Api)** (6/2022)

<https://gitlab.com/mohammadrezadehbashi/blog.git>

- **React JS** and React Router6
- Including **HTTP request method** (real api)
- UI with **Tailwind Css** ( responsive)
- Creating custom accardeon sidebar in dashboard
- **Git** as version control system
- Libraries :react-slick /react-tostify / react-icons /draft-js ,...

## SOFT SKILL

- Accepting Criticism
- Eager to Learn
- Interest in transferring experience
- Self study

## INTERNSHIP

### FRONT\_END DEVELOPER

Makeen Ideal Media Institution  
agust2021 -march 2022

I spent 540 hours at  
the Makeen Academy  
bootcamp learning
